21210	1	Superstructure BL 2.65 Saaa 265 incl. lifting pads
10287	1	Hydraulic unit BL 2.65, Ø213, PD 2650, stroke 1860 mm
12036	1	Ecological hydraulic fluid 17 ltr.
12172	1	M, Mercedes-approval and painting - S - grey RAL 7015
11103	1	Document holder AUTOPSTENHOJ
11104	1	Magnetic tool tray set, 1 set = 2 pcs.
Not part of the approval (options)		
11063	1	Set of cables 10 m
12106	1	Cassette PD 2650 BL

The triple telescopic swivel arms convince with a **non-standard lifting area**, which even makes it possible to lift commercial vehicles and large cars without any problems.

The **internal arm locking system** installed as standard reliably protects against external influences. An integrated mechanical safety ratchet provides additional safety for all work processes.

The **strong 213 mm diameter cylinders** are also designed for long-lasting functionality and further round off the high-quality level, which ensures **low maintenance requirements**. Even in the event of a power blackout, the lift can still be lowered without any problems thanks to the pneumatic emergency lowering system.

The Biglift 2.65 Saaa 265 is perfectly completed by a **control system that is both visually and technically convincing**.

Standardlackierung:
RAL 7015 grey

Options:
Large program of extra pads, depending on type of vehicle
Special colours available on request

Installation:
Superstructure on floor
Superstructure in floor with covers (Saaa 230)
Ceiling installation (Saaa 230)

Steel cassette:
Hot galvanized
Coated
Self-carrying (Saaa 230)
