	11063	1	Set of cables 10 m
	14097	1	Cassette ML PD 2600

The double telescopic swivel arms convince with a **very low minimum height**, which even makes it possible to lift low-profile sports cars without any problems. Tyres and rims are protected in the best possible way by the rounded design of the superstructure's chassis. The **internal arm locking system** installed as standard reliably protects against external influences.

The **strong 140 mm diameter cylinders** are also designed for long-lasting functionality and further round off the high-quality level, which ensures **low maintenance requirements**. Even in the event of a power blackout, the lift can still be lowered without any problems thanks to the pneumatic emergency lowering system. The Masterlift 2.35 NxT Saa is perfectly completed by a **control system that is both visually and technically convincing**.

Standard color:
RAL 7015 grey

Options:
Wide range of extra pads, depending on vehicle type
Special colours on request

Frame:
Standard: completely hot-dip galvanized

Sub-casing:
Standard: painted
Optional: hot-dip galvanized or plastic-coated

Installation variants:
On-floor installation
Ceiling installation

Versions:
Synchronisation and safety via synchronisation bar and toothed rack
Self-supporting installation, without load on the bottom of the sub-casing
