What does the VR-recording include?

Aside from the VR model you also get still images, 360 views, introduction videos and a gif – in other words you get everything you need for marketing on your website, social media etc.

We also offer publishing your VR model on Google Maps, increasing outreach by thousands of views.

Build in real-time

As soon as we begin recording your model builds in real-time, enabling on-the-spot quality control and giving you the best possible model - Get thousands of views!

With a VR model from AUTOPSTENHOJ published on Google Maps our experience shows that this generates thousands of views, meaning thousands of potential customers getting to see your business and increasing the likelihood of them choosing you.

„In just 1,5 weeks we got over 3000 views on Google Maps.“ – Johnny Vinther, CEO of KOED Aarhus Nord A/S
